

# Sample Certificate of Analysis (COA)

Illustrative B2B documentation format — not a batch-specific laboratory report and not evidence of test results.

|                   |                  |
|-------------------|------------------|
| Product           | [Product Name]   |
| Botanical Name    | [Botanical Name] |
| Plant Part        | [Plant Part]     |
| Batch / Lot No.   | [Batch / Lot]    |
| Date of Analysis  | [DD/MM/YYYY]     |
| Country of Origin | India            |

| Parameter          | Specification          | Result                | Method   |
|--------------------|------------------------|-----------------------|----------|
| Appearance         | [Agreed specification] | [Actual batch result] | [Method] |
| Colour             | [Agreed specification] | [Actual batch result] | [Method] |
| Odour              | [Agreed specification] | [Actual batch result] | [Method] |
| Moisture           | [Specification]        | [Actual result]       | [Method] |
| Foreign Matter     | [Specification]        | [Actual result]       | [Method] |
| Total Ash          | [Specification]        | [Actual result]       | [Method] |
| Microbiology       | [Specification]        | [Actual result]       | [Method] |
| Heavy Metals       | [Specification]        | [Actual result]       | [Method] |
| Pesticide Residues | [Specification]        | [Actual result]       | [Method] |

Important: Replace bracketed fields only with verified batch-specific laboratory data. Do not publish AI-generated results as actual COA results.
