

Quality & Compliance Documentation Overview

A buyer-facing overview of the documentation framework used for commercial enquiries.

Documentation	Availability / Approach
Business Registration	Redacted public copies of selected business registrations may be provided for due diligence.
FDA Food Facility Registration	Registration information may be presented for buyer verification. Public copy should exclude sensitive registration details.
FSSAI Registration	Public redacted copy available where appropriate. Scope and validity remain as stated on the issued certificate.
IEC	Redacted public copy available for export-business due diligence.
Udyam Registration	Redacted public copy available as business registration evidence.
COA	Batch-specific COA can be provided where available / applicable. Sample format is illustrative only.
Product Specification Sheet	Product-specific technical information can be prepared from verified product data.
SDS / MSDS	Available for applicable products and buyer requirements; product-specific data must be verified.
Export Documentation	Origin, phytosanitary and other export documents may be arranged where applicable and subject to shipment requirements.

Documentation is product-, batch-, destination- and buyer-requirement dependent. This overview does not constitute a certification or guarantee that any particular document is available for every product.
